NOTE

Probably no art dealers are more widely known in Japan than the Yamanakas of Osaka.

In forming this collection, the owners have taken particular care in the selection of the best and rarest pieces in every department of ancient and modern art of the Far East.

A glance at the collection will prove very fascinating to those who care for the beautiful art of the Japanese artists. The early paintings, the charming lacquers, the intricate carvings, the metal-work of fine lustre and minute workmanship, beautiful porcelains and the flawless crystal are all of real importance. The Shōmu, the Kamakura, the Yoshimasa, the Hidéyoshi and the Tokugawa eras have excellent representation.

I may say, without any hesitation, that such a gathering of fine early examples of Oriental art may not be seen again at public sale.

This catalogue has been compiled by me from the owners' manuscripts and I have thought it well to add occasional critical and explanatory observations for the guidance of intending purchasers and the general public.

TOZO TAKAYANAGI.
